

Former Google AI Researcher to Address Students

*Dr. Jack Poulson and panelists will discuss how Artificial Intelligence, big data and machine learning could impact our communities. Durham AI/Hub will provide a workshop on cybersecurity and surveillance issues. High school students will be challenged to think critically about the benefits and tradeoffs of using AI-enabled Geographical Information Systems. Will this technology help us adapt to climate change without sacrificing our basic human rights?

March 5th, 2020, 9 to 11:30 a.m.

Venture 13

739 D'Arcy Street, Cobourg K9A 5S3

RSVP to Jonathan Brown jbrown@sustainablecobourg.ca by February 21. For more information call 289-829-0812.
