Panel Discussion: Join Sustainable Cobourg for a half-hour panel discussion on sustainable development challenges. Register for separate workshops to follow on programming and coding with linked open data (see below).

Sector Partners: We want to thank the following sector partners for offering experiential learning activities: [ESRI K-12](#), [Exploration and Integration Lab](#), Statistics Canada; the [AI Hub](#) and [Centre for Cybersecurity Innovation](#), Durham College, [Data Docket](#), and [Mountain Math](#).

Coding Workshops: Workshops #3, #4 and #5 are professionally-led programming/coding activities. Workshop #5 requires downloading and installation of Tableau's *free one-year trial* software license for teachers and students 16 plus years and older. Go to: <https://www.tableau.com/academic/students>

Limited Spaces: [Class Teacher Workshop Registration Link](#) is for onsite classes. The [Public Workshop Registration Link](#) is for access outside the school for those 16 years and older or with parent consent.

For more information please contact Jonathan Brown at jbrown@sustainablecobourg.ca or by phone at 289-829-0812.
